Having everything on hand is really priceless. In this area of the village , a few steps from the door, you will find everything you need. Living as it once was, finding slower rhythms, taking more time for yourself: living in a peaceful and quiet context will be your medicine to escape the wear and tear of modern life. The living room, separated from the dining area, allows you to get up after meals and move into the living room to chat sitting comfortably on the sofa. How it used to be. The modern furnishing solutions used make this small kitchen functional which has been designed to save precious space for the benefit of the other rooms in the house. The master bedroom is the private room par excellence of the house, the most intimate space where you can find rest, keep your personal items and maybe listen to your favorite music. The bedroom is one of the most versatile rooms in this house. It can perform many different functions according to your needs: children's room, but also guest room or study. Inside the main bathroom the bathtub "forces" you to "take it easy" and this can be therapeutic. A warm bath will become the perfect opportunity to recover energy and take a break from the daily frenzy. Cities are increasingly congested by traffic and noise: the property courtyard will allow you to stop the noise and give you peace of mind.
